

## MANY CHANGES ANNOUNCED IN NEW BUDGET

Ottawa, Ont.—Hon. C. A. Dunning, in his first budget speech announced: "Sales tax reduced from two to one per cent."

Downward revision of the tax was brought in the last year on the sale and transfer of stock.

Trade on New Zealand butter increased one cent to four cents a pound.

Trade agreement now in operation with New Zealand will be terminated on October 12.

Trade agreement with Newfoundland to be announced soon.

Long list of tariff changes.

Increases in the general tariff on steel plate and structural steel, with duty lowered under British preference.

A countervailing duty to make Canadian tariff same as country of export on certain commodities, including certain vegetables, eggs and grain.

Ottawa.—An estimated surplus of \$44,507,000 for the fiscal year 1929-30 was announced by Hon. C. A. Dunning, Minister of Finance, in his budget speech.

Together with this announcement came the important statement that "numerous and complex" changes in tariff rates are provided for.

Summarized briefly, the Minister told the House that the present budget tariff proposals involve, under the general tariff, increases in rates on 54 items and decreases on 46; under the intermediate tariff, increases in rates on 35 items and decreases on 98; and under the British preferential tariff, increases in rates on 11 items and decreases on 270. When the revision is completed the Canadian customs tariff will consist of 1,188 items, of which 389 will be under the British preference.

The changes proposed, the Minister stated, will have the effect of greatly increasing the British preference in the Canadian market.

The same as Mr. Dunning made his statement to the House of Commons and the Dominion of Canada was tense with dramatic interest. On the floor of the House nearly every seat was filled. Galleries were packed. For weeks the word had gone forth that this would be the most far-reaching budget in a decade. It was referred to as "an election budget" — the pronouncement on which the government proposed to stake its political life. Long before the bells throughout the parliament buildings summoned members to their seats, impatient crowds gathered outside the public and private galleries of the Commons' chambers. Many women were there. They waited while the usual routine of prayers was gone through. Then the doors were thrown open and they flocked into the galleries.

## Must Take Livestock Industry Seriously

Or Canadian Farmers Will Lose Business, Says Cattle Man

Winnipeg, Man.—Canadian farmers must look to their livestock producing as a serious industry or they will have it taken away from them, declared Col. H. A. Mullins, former member of Parliament for Marquette and one of the best-known cattle men in the Dominion here.

Just as big packing companies in the United States have undertaken to raise their own cattle, Canadian firms will be forced to do the same thing if farmers fail in this respect as they have done heretofore. In Montana, Col. Mullins said, abbatoir companies are feeding 52,000 hogs and nearly 3,000 cattle.

### Noted Barrister Dead

Ottawa, Ont.—Eugene Lafleur, K.C., one of Canada's most distinguished barristers, died here April 30, from pneumonia. Mr. Lafleur was prominently connected with most of the largest litigations which Canada has had in recent years. He was to have acted as the Dominion's representative on the board of arbitration which is to investigate the "I'm Alone" dispute with the United States.

### Radio Stations To Fight Fires

Port Arthur, Ont.—To aid in forest fire battles, two radio stations will be operated from advantageous points in the Thunder Bay district this season. Communication will be established between observation towers and the chief ranger's headquarters.

W. N. U. 1836

## Ramsay MacDonald Has Talk With Australia

Twelve Thousand Miles Bridged By Beam Wireless Service

London, England.—On April 30, in the cabinet room at No. 10 Downing Street the telephone rang promptly at 8:30 in the morning and Prime Minister Ramsay MacDonald, conning some papers in his usual chair at the head of the table, lifted the receiver and said: "Hello, is that you, Sculps?"

Thus was inaugurated the first direct beam wireless telephone service between England and Australia. The Labor Premier of Britain conversed with the Labor Premier of Australia, James Scullin, over a distance of 12,000 miles, and the chat went on for 15 minutes.

The impression prevailing in political circles is that creation of the new portfolio will give Prince Edward Island representation in the cabinet. Since 1926, that province has been without ministerial representation, but it is recalled that at the time of the formation of his fast cabinet, four years ago, the Prime Minister intimated that a minister from Prince Edward Island would be added. It is stated, however, that the government is considering the question whether to give the province representation through the new department of fisheries or through another department by the shuffling of portfolios.

Mr. J. E. Sinclair and R. J. Jenkins, both Liberal members for the dual constituency of Queens and Antigonish, Nova Scotia, and former members of Prince Edward Island, Dr. MacMillan was a member of the Atlantic Fisheries Commission.

Another name prominently associated with the appointment is that of Dr. Cyrus MacMillan, a professor at McGill University and former of Prince Edward Island. Dr. MacMillan

is a member of the Atlantic Fisheries Commission.

Creation of a separate department of fisheries with a minister and a deputy presiding at its head was recommended by the Duncan Royal Commission, which investigated conditions in the Maritime Provinces back in 1925 and 1926. About a year ago, W. A. Found was appointed as Deputy Minister of Fisheries to carry on such duties under the Minister of Marine and Fisheries, Hon. J. A. Cardin. Under the proposed legislation, Mr. Cardin will devoid his ministerial energies to marine.

Another legislative proposal bearing on fisheries is for the transfer to the new department of fish used for preserving purposes, tanners and steel and the like. This is now being performed by the Department of Agriculture under the Inspection and Sale Act.

It is contemplated also to increase from five to seven the number of appointments which may be made by the minister of fisheries to the Biological Board of Canada.

The purpose of the change is to give an additional representative to the fisheries industry of both British Columbia and the Maritime Provinces.

The department is also anxious to promote the shipment of canned B.C. fruit and vegetables to the Orient, and Mr. Macmillan believes that a large business in this line can be built up.

The need of extensive advertising to compete with huge American exports is stressed. Officials of the department will confer with the fruit, vegetable and canning industries in an effort to take advantage of these possibilities in a big way.

## Studying Canadian Railway Methods

Reorganization Of Their System  
Planned By Soviet Officials

Winnipeg, Man.—Six officials of the Soviet Republic arrived in Winnipeg to study the methods and the facilities of the Canadian National Railways with a view of producing a complete reorganization of railroad practice in Russia.

"Traffic has increased to such an extent in recent years that we find ourselves unable to cope with present needs and consequently we must reconstruct our whole railway system," said D. E. Sulimoff, Vice-President's Commissioner for Ways of Communication of the Soviet Republic, who is heading the committee in its investigations. "We are particularly interested in the heavy track, the stronger motive power and the yard facilities, none of which are found in any European country."

### Manitoba Seeding Nearly Done

Winnipeg, Man.—Seeding of wheat is about 80 to 85 per cent finished in Manitoba and present prospects are favorable for early sowing of the entire grain crop, according to a statement issued recently by the Manitoba department of agriculture. A large number of farmers have already wheat sown and are proceeding with the planting of their other crops.

### Delegates From Canada

Montreal.—A thoroughly representative group of Canadian business men will leave for London, England, May 16, to attend the Federated Chambers of Commerce of the British Empire conference, starting May 26.

## PRIME MINISTER PROPOSES NEW FISHERIES POST

Ottawa, Ont.—Prime Minister Mackenzie King has given notice of a motion providing a salary for a new Minister of Fisheries. Another motion standing in the name of the Prime Minister on the order paper declares that it is expected that there shall be a new Department of Fisheries. The salary of the Minister of Fisheries is set at \$10,000, which is identical with that of the other Cabinet ministers.

The impression prevailing in political circles is that creation of the new portfolio will give Prince Edward Island representation in the cabinet. Since 1926, that province has been without ministerial representation, but it is recalled that at the time of the formation of his fast cabinet, four years ago, the Prime Minister intimated that a minister from Prince Edward Island would be added. It is stated, however, that the government is considering the question whether to give the province representation through the new department of fisheries or through another department by the shuffling of portfolios.

Mr. J. E. Sinclair and R. J. Jenkins, both Liberal members for the dual constituency of Queens and Antigonish, Nova Scotia, and former members of Prince Edward Island, Dr. MacMillan

is a member of the Atlantic Fisheries Commission.

Creation of a separate department of fisheries with a minister and a deputy presiding at its head was recommended by the Duncan Royal Commission, which investigated conditions in the Maritime Provinces back in 1925 and 1926. About a year ago, W. A. Found was appointed as Deputy Minister of Fisheries to carry on such duties under the Minister of Marine and Fisheries, Hon. J. A. Cardin. Under the proposed legislation, Mr. Cardin will devoid his ministerial energies to marine.

Another legislative proposal bearing on fisheries is for the transfer to the new department of fish used for preserving purposes, tanners and steel and the like. This is now being performed by the Department of Agriculture under the Inspection and Sale Act.

It is contemplated also to increase from five to seven the number of appointments which may be made by the minister of fisheries to the Biological Board of Canada.

The purpose of the change is to give an additional representative to the fisheries industry of both British Columbia and the Maritime Provinces.

The department is also anxious to promote the shipment of canned B.C. fruit and vegetables to the Orient, and Mr. Macmillan believes that a large business in this line can be built up.

The need of extensive advertising to compete with huge American exports is stressed. Officials of the department will confer with the fruit, vegetable and canning industries in an effort to take advantage of these possibilities in a big way.

### DEFENDS MARSHALL FOCH

Raymond Poincaré, former premier of France, has taken up the pen to defend Marshal Foch against the criticism of Clemenceau's "Grandeur and Misery of Victory."

### Japan Chooses Vancouver

First Trade Commissioner Arrives To Open Office At Canadian Port

Vancouver, B.C.—Japan has appointed its first trade commissioner to Western Canada in the person of Matsu Sumi, who has arrived in Vancouver to open an office here from which he will seek to stimulate Japanese trade with Western Canada and the Northwestern States.

"There are busy ports in the American part of my territory," Mr. Sumi said, "but the fact that the Japanese government has selected Vancouver as the site of the office indicates the importance that my country attaches to the growing trade with this port."

Japan now has diplomatic, consular and trade representation in Canada. The trade commissioner will work in co-operation with the consular service, Mr. Sumi said.

The volume of trade between Canada and Japan has increased twenty-fold in the past 20 years, the new trade commissioner said.

Last year Canada's imports were \$15,000,000, while exports to Japan were \$13,000,000, making a total volume of trade of \$35,000,000, or twice as much as in 1919.

### Britain To Establish

#### Flour Regulations

##### Minimum Percentage Of Domestic Flour Required For Each Loaf

London, England.—The British Government has definitely decided to establish regulations requiring a minimum percentage of British wheat flour in every loaf, milled in Britain, according to the agricultural correspondent of the "Daily Express" to day. The newspaper adds the minimum will be varying, not a fixed figure and that the government's policy will shortly be published in the form of a government "white paper."

##### May Amend Foods and Drugs Act

Ottawa, Ont.—Hon. J. H. King, minister of pensions and national health, introduced a bill to amend the Professions and Drugs Act in the House of Commons recently. This provides for analysts who are employed by the provinces or municipalities, and who are not members of the departmental staff to be designated "Dominion Analysts" while so employed.

##### AN INTERESTED SPECTATOR

This photograph shows Stanley Baldwin (left), former prime minister of Great Britain, smoking what looks like a "Dawes pipe," with the Cambridge coach, watching the Cambridge crew train at Putney, Eng., in preparation for the classic Thames boat race, which was won by the light blue of Cambridge.

## Manufacturing Is Increasing On Prairies

### All Three Provinces Are Sharing In Rapid Development Of Industry

Winnipeg, Man.—Progress of the manufacturing industry of the Prairie Provinces has been rapid during the past year, was testified to by C. E. Harvey, of Winnipeg, retiring chairman of the prairie division of the Canadian Manufacturers' Association, at the annual meeting here.

Mr. Harvey said many new factories came into production on the prairies last year, the value of products produced in 1929 totalled more than \$340,000,000, and all provinces—Manitoba, Saskatchewan and Alberta—shared in the development.

Saskatchewan, famed as a wheat producing area, can now also lay claim as a manufacturing province of importance, said Mr. Harvey. Last year the manufacturing industries of the prairies distributed a pay-roll of more than \$75,000,000, and the general public are rapidly coming to the realization that factories have a definite value to the community. Industrial workers created a "home market."

### Amendment Was Defeated

#### Move For All-British Beer Voted Down In House

London, England.—The Conservatives lost their fight in the House of Commons for all-British beer. They had two amendments to the beer tax resolutions of the budget. One would diminish the increased beer tax proposed under the budget. The other would give a rebate on beer made from home-grown malt hops. But the chancellor of the exchequer was obstinate. He would accept neither.

Under a combined Liberal-Labor vote the first amendment faced an adverse majority of 131. The second found an adverse majority of 128.

## DISCUSS BONDING OF COMMISSION GRAIN BUYERS

Ottawa.—Methods of protecting farmers from defalcations of commission grain merchants were discussed in the House of Commons Committee on Agriculture. It was pointed out that elevator operators were fully bonded to protect persons who stored grain with them. In the case of commission merchants protection to the same extent was not afforded.

The question was raised during a discussion of the new Grain Act by Hon. H. H. Stevens (Cons. Vancouver Centre), who thought there should be some provision in the act for the bonding of commission merchants.

E. B. Ramsay, chairman of the Board of Grain Commissioners, thought commission men might be put out of business if they were required to put up higher bonds than now.

Doubt as to whether commission merchants served any useful purpose was expressed by E. J. Garland (U.F.A., Bow River). He said the business was dying out, and wondered if the services performed by these men to the trade compensated for the losses sustained through their occasional defalcations.

The commission men were an important factor in competition with elevators said Mr. Ramsay. Their operations acted as a curb on the tendency of elevator companies to increase their charges.

In this case, Mr. Garland said it might be a good thing to raise the bonding requirements. Then those commission men who were able to make a profit from the business could carry on and the farmers would be protected.

Strict penalties are provided in the new Grain Act for breaches of its provisions respecting commission merchants. A penalty of not more than two years imprisonment or a fine of not more than \$5,000 on indictment is provided for any person who buys, sells or arranges for the weighing, inspection or grading of western grain for reward without a commission merchant's or grain dealer's license.

Some discussion arose about this section, particularly a clause placing the burden of proof of innocence on the accused. Some thought it was too severe and Mr. Stevens objected on the ground that it conflicted with the general principles of British jurisprudence. The committee has almost completed its review of the act. Many difficult and contentious sections have been left over and will be taken up at later sittings.

## RESOURCES BILLS HAVE BEEN GIVEN SECOND READING

Ottawa.—Legislation for the return of the natural resources to the Prairie Provinces has been given second reading in the House of Commons. Following the presentation of the budget, the bills respecting Alberta and Saskatchewan passed through the committee stage and were given second reading.

It then took up the bill providing for the transfer of the Peace River block and the railway belt in the province of British Columbia to the provincial authorities, which received similar treatment.

The discussion centred around an amendment to the Alberta bill designed to give that province certain rights contained in the agreement with the province of Saskatchewan which were not embodied in the agreement with Alberta.

The Alberta agreement for a railway commission investigated the financial relations between the province and the Dominion since 1905 in order to determine what sum should be paid the province. Hon. Lucien Cannon, solicitor general, explained.

The government of Saskatchewan wanted this investigation carried further back to 1870, the time of the taking over of the Northwest Territories by the Dominion. In addition, it wanted the courts to determine the validity of restrictions placed on the province in connection with education. By the amendment these rights were extended to Alberta.

Hon. R. B. Bennett suggested that following the ratification of the agreements parliament should pass an act to give full effect to the transfer which would take place when Imperial legislation was passed.

Hon. Ernest Lapointe, Minister of Justice, said the government would take the matter into consideration and would do everything necessary to carry out the agreements.

### Praise For Universities

#### Colleges Of Canada Have Greatly Impressed British Headmasters

Edmonton.—Glowing praise for the universities of Canada and that of Alberta in particular was offered by headmasters of English schools who visited Edmonton, at a dinner given by the provincial government in their honor.

Speakers during the evening stressed the wonderful opportunities which await British boys who come to Canada to finish their education under Canadian conditions and the important part such youths might play in the building of Canada.

The dinner was featured by the meetings of former British school pupils with the headmasters, the dinner having been primarily arranged to allow such renewing of acquaintances.

Premier Brownlee extended greetings of the provincial government to the visitors.

### Livestock Ranch For North

#### Company Interested Has Applied To Ottawa For Lease Of Land

Prince Albert, Sask.—Prattier interests planning to establish a livestock ranch north of Big River, have applied for a lease on a third of a township in the vicinity of that town, it was revealed by L. G. Patterson, Dominion lands agent. He stated the area has been inspected by those behind the project and found to be ideal for live stock ranching.

It is intended to raise sheep and Angora goats. Mr. Patterson has been informed. The application for a lease has been forwarded to Ottawa. The names of those behind the scheme have not been divulged.

### Returning To Canada

Montreal.—More than 2,000 French-Canadians who have been domiciled in the United States have made plans to return to Canada according to Monsignor J. H. Prud'homme, Bishop of Prince Albert, Sask., who has been in Montreal.

### Duchess Completes Trip

London, Eng.—The Duchess of Bedford, 64-year-old aviation enthusiast, completed a round trip to Capetown when she landed at Croydon airport April 30.

Czechoslovakia exported \$1,617,000 worth of pencils last year.

## NOTES AND COMMENTS

Spring is very tardy in giving us real warm weather, but there are manifold signs that it has arrived. Nez Perce creek is increasing its musical ripple every day until it is almost a roar, the bright flashes of bluebirds flitting from tree to tree give a thrill such as nothing else can, and the tulips are almost bursting into full bloom.

Amateur gardeners are very busy these evenings; others are giving a few touches of paint to their buildings, but ladies spring bonnets have not yet made very much of a showing.

The advent of spring conveys a mighty good object lesson to us all. Under the stress of adverse circumstances, many often feel that the load is almost unbearable, and become so blinded with doubt and pessimism that 'tis almost impossible to discern any silver lining to the clouds. Yet on observing how Nature re-awakens, as it were, with the departure of snow and ice, how trees struggle bravely forth to new life, and flowers blossom and the hibernating animals rouse from their lethargy, one cannot but feel that as human beings with superior intelligence to the lower orders of creation, we should certainly be able to surmount the difficulties that in most part are of our own making.

We all have to learn the lesson of life, though as one sage remarked, it takes us almost a lifetime to learn it, and then it is about time to die. Life always has and always will be progressive. Natural laws teach it, and one can never cease to observe and learn. Though the going may be hard, it can be softened by one's mental outlook, and so ordering his daily life that obstacles do not appear difficult to overcome.

Here is a quotation: "What is difficulty? Only a word indicating the degree of strength requisite for accomplishing particular objects; a mere notice for the necessity of exertion."

With the signing of agreements between miners and operators, the activities of agitators who always seize on a time of unrest to spread their influence will partly cease. Conditions which one set of people or nation will accept may be entirely impractical with people of other countries. The general conditions which prevailed in Russia, may have necessitated the present day policies in force there, and the experiment will be watched with great interest by thinking people. Ask the average Canadian to accept the same regulations as reported to be in force there, and how many would submit? Compulsion is abhorred by the great majority, an example of which we experienced, the evils, and contempt of law, during Prohibition days in Canada.

Not overlooking the fact that unemployment is a serious factor to be dealt with in Canadian national life, as in all other countries, there are still opportunities for the individual to rise. Reduce everything to a standardized practice, eliminate the incentive for reward which accompanies progress, would the people as a whole be better off? The natural impulse is to rise, and natural laws cannot be cast aside and replaced by artificial methods.

There is humor in most things, perhaps not readily perceptible. Last week was heard a man denouncing the Union Jack, yet enjoying the privilege it afforded of free speech. The fact that the flag was there enabled him to speak to an audience with very mixed feelings. Pulling the lion's tail always has been a favorite sport. A man who has not pride of race, who owes no allegiance to any nation, is what might be termed a nondescript. Yet such a one would seek a place in the government of Canadian citizens.

Everybody enjoys a good laugh. The shows that usually are the most popular are those which cause people to laugh. They leave the theatre with smiles and beaming with good nature. There is no serious plot to study; no morbid feelings created, and the "blues" are chased away. Such a play was "No, No, Nanette", which was enjoyed by all who saw it. People dislike pictures with lots of "bunny-hugging" and suggestive scenes, and a move has been made to eliminate many of the objectionable features which have been all too common. Motion picture producers will have to watch public opinion very closely if they are to maintain a satisfactory volume of business, for unless they distribute popular features, they will suffer through lack of receipts by the exhibitor, who already suffer much by the handicaps placed on them by the industry.

A Quotation for today--The greatest results in life are usually attained by simple means and the exercise of ordinary qualities. These may for the most part be summed in these two--common sense and perseverance.--Feltham.

## WORLD HAPPENINGS BRIEFLY TOLD

There are 27 aeroplanes in use by the Canadian Government at present. Canada has spent \$63,884 in sending delegations to the International Labor convention at Geneva, since 1925.

Earl Brydges, champion dog team driver of the world, is to become a resident of Ontario and Quebec. He is taking with him the team which sped to the world's title at The Pas dog derby this winter.

Navigation on the Great Lakes officially opened April 28, with the arrival of the "Hamonic" and "Noronic" at Port Arthur, with 3,000 tons of package freight for Western Canada points.

For the eleven months ending February 28, 1930, a total of 406,980 radio licences had been issued in Canada. Ontario with 201,941 receiving sets leads Canada. Saskatchewan has 31,266; Alberta, 20,573 and British Columbia 34,426.

The vaults of the Bank of France now hold more than one-sixth of the gold reserves of the world. France stands second in gold reserves only to the United States. Her present reserves exceed those of Germany, Italy and Britain combined.

So far this year there have been 20 forest fires break out in British Columbia. The extent of the conflagration was limited, however, with resultant damage comparatively light. There were 49 outbreaks during the same period, last year.

The body of Robert Bridges, poet laureate of England, was cremated at Golders Green, with such secrecy, that even the closest friends of the family were unaware of it. The poet's widow and daughter were among the few who were present. There were no flowers.

En route to Mayfair, Saskatchewan, where they have purchased land, Louis Nadeau, accompanied by his family and a brother and sister, arrived at North Portal from Chicago, Mass., in a truck fitted up as a home. They are returning Canadians and made the whole trip by motor.

### Industry Growing In Value

The value of the mining industry to Manitoba is strikingly shown in a report of the Manitoba Chamber of Mines, which shows expenditures for the year 1927-28-29 as follows: 1927, \$1,553,619; 1928, \$4,853,185; 1929, \$12,302,926. The wages item shows expenses in 1929 to have been eleven times a great as in 1927.

## NERVES WERE BAD

### Could Not Sleep

### Tired All Day Long

Miss Florence Coutier, Bark Lake, Ont., writes: "I was troubled with my nerves, could not sleep at night, and felt tired all day long."

"A neighbor came in to see me, one morning, and advised me to take

"The first box did me good and after the sixth box I was able to go back to my work."

Price, 50c, a box at all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Toledo, Ohio.

## Endured Years Of Hardships

Austrian Soldier Returns Home, But Is Now Italian Citizen

From the Little Village of Campi, near Trento, Italy, August Lorenzi, 38, departed, 15 years ago as an Austrian soldier to fight the Russians. He has just now returned after years of hardships to find himself an Italian citizen, because his village, by the fortunes of war, became Italian. Lorenzi was captured by the Russians in 1914. He was sent to Semipalatinsk, then to Tomsk, Samara, Tambov and Gorod. He was made to march 1,000 miles until the work broke his health.

Then he farmed out to a miller, with whom he was working at the time of the revolution in 1917. The Bolsheviks sacked the town and burned the mill, Lorenzi died at night. He passed several years of intense misery until, in 1921 he became a farm hand. It was not until the following year he was able to send a letter to his relatives in Campi. He did not then know that the war was over.

The next year, despairing of ever being able to leave Russia, he married the daughter of a farmer. In 1923 the authorities at Campi, through the Italian ambassador at Moscow, began to exert influence to allow him to return. But the Soviet government, because he had married a Russian, withheld his passport for four years. At last they let him go with only eight dollars and a few articles of clothing.

Another fascinating excursion is that to the Pacific Coast. This allows of opportunities for the exchange of old and new knowledge associated with the Canadian Rockies, to see beautiful Lake Louise, to enjoy a round of golf over the famous course at Banff Springs, or to stay a week or two at Emerald Lake. Chilcotin, enjoying the fresh mountain air and the scenery is offered. One of the chief features of this tour is the natural bridge, a twenty-four hour motor detour which takes the visitor by way of the famous Banff-Lake Louise region through the Kicking Horse Pass to the upper Yoho, perhaps the most glorious and varied motor trip that has ever been offered on this continent. Then on by train over the picturesque British Columbia with its mineral industries to Vancouver. After Vancouver—Victoria, the capital of the province, renowned for its scenic resemblance to the Old Country. At Victoria the famous Colwood Golf Course, the Dominion Astronomical Observatory—with the second largest telescope in the world and Butchart's famous gardens are the chief attractions. At Victoria, two famous excursions are offered a ten day cruise to Alaska and a seven day cruise on the West Coast of Vancouver Island. To those who vacation period is short, the famous Canadian Pacific "Trans-Canada Limited" will have valuable speedily travel. It is equipped with the all-steel sleeping cars, sun-parlour lounge, women's lounge and bath, men's bath, smoking room, buffet with soda fountain, and observation lounge, and a valet service. It is finer and faster than ever, and the equipment of each train entails an investment of over a million dollars.

### YOUTHFUL AND CHARMING

All Tingey models are created in Paris and sketched by her there. The patterns are made and adapted for American wearers.

Juniors and their dearest sisters will love this smart little frock. It has box-pleating to finish the skirt and a lace hem.

The sections giving such a professed effect are merely tufts, and these can be omitted if preferred. Returning to the box pleats again, the reason for this is that these are large enough to keep well pressed quite easily.

With the collar and cuffs the original model in the market rays were of cream wash silk (the in red silk); they would also be very effective in self material or in spotted and printed designs. Navy and white is while, green, light blues, etc., are nice.

Besides rays, crepe, kasha, gauze, fine serge, broadcloth, etc., are good.

This pattern may be obtained in sizes 2 to 29, ready for immediate use. It is hand cut.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

### How To Order Patterns

Address: Winnipeg Newspaper Union, 175 McDermot Ave., Winnipeg

Pattern No. Size .....

Town .....

Berlin, Germany, will have 10 exhibitions this year.

## Canadian Pacific Offer

### Attractive Summer Tours

Is your vacation anytime between May 15th and September 30th? If so, why not take one of two very interesting tours—at reduced rates—offered by the Canadian Pacific? Consider first the Eastern Tour and what it has to offer. It will enable the tourist to visit Ontario—with its famous lake resort, Old French Canada—with its picturesqueness "habitations," and the Maritime Provinces—with the interesting fisherfolk and their equally-interesting craft. The tourist may travel to these places entirely by rail, or may choose to travel some of the way over the cool waters of the Great Lakes on a great western Canadian Pacific Great Lakes Steamer.

Various Ontario resorts at the lakeside provide fishing and bathing and, in fact, all summer sports. Niagara Falls, the beauty of which attracts tourists from all over the world, is only one of the many otherسائل features of this tour. One may, on this eastern excursion, visit Old Quebec, the capital of Canada, and the many other historical sites which will see the many picturesquely Catholic shrines that are scattered along the shady Quebec country roads—the "haunted" wagon roads, drawn up at the dools, the old stone walls, the old stone houses, the new world, whilst—almost under its very shadow is the Bonsecours Market, where the French "habitants" still speak their language and keep their relations to the old land. Then again the excursionist may resolve to pass on as far as the Maritime—as far as St. Andrews, Fredericton, and so on. In proportion to its size, there are more magnificent homes and more prominent visitors in St. Andrews than any other town in Canada.

This is Digby, Nova Scotia—the fishing centre; Parrsboro—the Postern Gate of Nova Scotia; Yarmouth and Western Nova Scotia, shipping centre; and Old Orford, Maine—a famous bathing resort.

### PACIFIC COAST

Another fascinating excursion is that to the Pacific Coast. This allows of opportunities for the exchange of old and new knowledge associated with the Canadian Rockies, to see beautiful Lake Louise, to enjoy a round of golf over the famous course at Banff Springs, or to stay a week or two at Emerald Lake. ### Germany's New Idea

A European trade conference dealing solely with Canadian gypsum products is scheduled to open in London, on April 30th, says R. E. Haire, head of Gypsum, Lime and Anhydrite, Canada, Limited, who points out that, "in three years' time, trade in Canadian-made gypsum products has developed with 35 other nations and has increased so rapidly that the company has now become the largest exporter of the materials in the world."

### Dairy Production Higher

According to L. A. Gleason, provincial dairy commissioner, the winter dairy production in the province of Manitoba for the first two months of 1930 has been the highest in the history of the province, an increase for January of 0.9 per cent. and February 0.4 per cent. over 1929.

### Germany's New Idea

A novel experiment in prison life in which "high grade" prisoners will be given two weeks' vacation a year, permitted to accept work from outside employers and given a share in the management of the prison, is about to be tried out in Germany. Captain Franz Romer paddled a rubber boat from Lisbon, Portugal, to St. Thomas, Virgin Islands, 2,944 miles in 68 days. He was without escort and did not know how to swim.

# When Babies FRET

There are times when a baby is too fretful or feverish to be a good sleep. There are some pains a mother cannot put away. But there's no time when any baby can't have the quiet comfort of Castoria. A few drops, and your little one is soon at ease—back to sleep almost before you can slip away.

Remember this harmless, pure vegetable preparation when children are ailing. Don't stop its use when Baby has been brought safely through the age of colic,

diarrhea, and other infantile ills. Give good old Castoria until your children are in their teens! Whenever coated tongues tell of constipation, whenever there's an attack of sluggishness that needs no strong medicine to relieve, Castoria is pleasant-tasting; children love to take it. Buy the genuine—with Chas. H. Fletcher's signature on wrapper.

Miss Lizzie rocked violently for a moment, while she wiped her streaming face with a corner of her apron.

"I don't seem to have a handkerchief," she gasped. "Maybe I dropped it on the way."

"This seems to be your day for dropping things," smiled Grandma. "I saw your petticoat come off less than an hour ago."

"I hope to goodness no one else saw it," replied Miss Lizzie.

"I didn't see any fishy petticoats all day," she said. "I thought I hadn't got as far as the next card room where I was going or would have been all over town by now. Well, Grandma, I've got some news—more news than Wickfield's seen since Noah boarded the Ark: Edgar Purdie is suing Jimmie Moore, over to South Wickfield, for breach o' promise! He's got evidence that he gave her a costly present and she won't return it after refusing to be his wife! Now what do you think o' that?"

"I think Luella's got more sense than I gave her credit for," responded Grandma. "A woman that's smart enough to get any sort of present out of Edgar Purdie, deserves to keep it. Did you hear what 'twas he gave her, Lizzie?"

Grandma was so absorbed that she didn't notice a near-light across the street.

"It was heads," replied Miss Lizzie promptly. "A long string of fancy yellow heads that cost the deacon a week's pay or more. Oriental, I called 'em; though Sarah Bennett, who see 'em with her own eyes, says they don't look one mite better than what you can get at the five-and-ten cent store up in Portland. Since the deacon carried 'em with him when he asked her; and like a fool he gave 'em to her first. Guess he thought they'd sort of pay the way for intentions, and according to him the seemed real pleased said yellow heads were a good omen, and then fasten 'em around her neck himself."

"My stars!" breathed Grandma, aghast. "I wonder if he's still got 'em?—so—What you laughin' at, Grandpa?" broke off Miss Lizzie, as the old lady suddenly gave way to mirth.

"I was only thinking, why Ed Purdie must have looked when he altered those heads around Luella's neck. Go on, Lizzie. Did he ask her then?"

"I pecame he did, it bein' what you might call the proper moment; but accordin' to her she sort of put him off. And here's where the trouble commences—trouble for Luella, I mean. She let him kiss her! Of course he went off thinkin' it was good as settled; but when he drove clear to South Wickfield next evenin' for a little love makin' after the children was in bed, she'd changed her mind! They had words, and he asked for the heads back and she wouldn't give 'em up—said he'd made her a present of 'em, and so fur's she knew there wasn't no string tied to it. He come away madder'n a wet hen, and wavin' to get the law on her. And next mornin' he put the case in Lawyer Garfield's hands. He's suin' for two thousand dollars and possession of the heads. They say Sam Garfield tried to calm him down, and means to settle it in o' court if Luella's reasonable. Now did you ever hear the best o' that?"

"No," replied Grandma soberly. "I never did, and I wish Ed Purdie do with the heads if he gets 'em back. I'd like to see him wear 'em himself, Lizzie, and they wouldn't be special use in a missionary barrel, which every one in Wickfield knows is the only charity he ever gives to, and that only because he

can get rid of his wornout clothes and credit for being charitable at the same time."

"I dunno but what a string o' beads would be more trouble to the heathen than that old sick at the deacon found up attic and donated; last time we packed a barrel," said Lizzie. "It took up a powerful lot o' room, though I put a cracked butter dish inside it, and some woolen stockings. Savages are partial to beads, so I've always heard, as like as not the heathen are, too; and the beads would cover a little of their nakedness, which a hat wouldn't."

Grandma's lips twitched with amusement as she replied: "Somehow, Lizzie, I don't think Ed Purdie is counting on giving those beads to the heathen. Luella Moore isn't the only pebble on the beach, as they used to say, and if she won't have him, he's likely to look further. May-be he'll ask you."

In her indignation Miss Lizzie tried to rise, but as she was what they call "fesky" in Wickfield, and the chair was a small rocker with arms, which showed a tendency to rise with her, she sank back helplessly and said: "I'm ashamed of you, Grandma Davies! Why, I wouldn't take Ed Purdie, if he was covered entirely with beads like the hog that city man carried to the strawberry festival!"

"There! there!" soothed the old lady. "I didn't mean to get you all stirred up. If he did ask you, Lizzie, it would be the only sensible thing he's done since he asked his first."

"Well," sighed the caller, relenting enough to smile at this tribute, "I dunno but what you're right, though so fur's I know, no man has ever agreed with you. Praps it's just as well. I've always thought a proposal would be a terrible embarrassing thing to live up to."

Grandma's eyes twinkled.

"So it might be, Lizzie, under certain circumstances," she admitted. "You got to go this night?" as Miss Lizzie made another effort to leave the chair. "If Charman is only a darling to his senses and dropped that come to you to stay to dinner; but I guess we won't have much but a pick-up. She's gone over to South Wickfield with Jim Bennett to collect a Norfolk suit within a certain time. Ultimately, they laid their man by the heels and he was convicted."

A criminal laboratory can convert a man who has committed what he may consider a perfect crime with out leaving any trace.

## HEADACHES

Needless pains like headaches are quickly relieved by Aspirin tablets, as many people know. And no matter how suddenly a headache may come upon you, you can always be prepared. Carry the pocket tin of Aspirin tablets with you. Keep the larger size at home. Read the proven directions for pain, headaches, neuralgia, etc.

### Vienna Uses Science In Detecting Criminals

Can Convict Man Who Believes He Has Left No Trace

Some may be inclined to smile at the idea of Dr. Wilfred Derome of Montreal, of a criminal laboratory for Ontario, but it is a valuable suggestion. Science has played an important part in murder trials, particularly in poison cases and in the analysis of spots of blood, but a criminal laboratory can go much further than that.

In no country has science been developed to such a fine art in criminal detection as in Vienna. Here is a case in point.

A man was found murdered with a pocket knife in his heart. The owner of the knife proved that it was stolen from him some months before, and that he had nothing to do with the murder. The knife was turned over to a professor at the university, who took it to pieces and analyzed the debris which had collected between the blades from the pocket of the man who had been carrying it. He found tiny pieces of twist from the lining of the coat pocket, and came to the conclusion that the coat was of a kind of yarn used by English manufacturers in the making of what are called "Norfolk coats."

With that clue, the police set about finding a Vienna tailor who sold English suits of that kind. They found him, and by examining the pocket lining they checked up on the movements of all the men who had bought Norfolk suits within a certain time. Ultimately, they laid their man by the heels and he was convicted.

A criminal laboratory can convert a man who has committed what he may consider a perfect crime with out leaving any trace.

### Displayed His Originality

Mark Twain Started Literary Career  
On His Brother's Paper

Long-ago, a newspaper containing original first works of Mark Twain, famous humorist, and described by him in his autobiography as representing "my first literary venture," have at last been discovered, in Hannibal, his native home. They reveal the boy, Sam Clemens (Mark Twain), in his teens, as substituting as editor of his brother's newspaper there, and striving to "liven up" the columns of the paper with his wit. His methods reveal him as even then richly possessed of the ingenuity he later instilled in his famed fiction characters, Tom Sawyer and Huckleberry Finn.

The return of Orion to discover that his young brother had been making the paper "spicy" is indicated in an editorial, by the editor, May 13, 1853, that "Rambler and his enemies must stop their stuff!" This editorial edit seems to have ended Mark Twain's fun, and what probably were his very first literary and journalistic efforts.

Was Queen Alexandra's Friend Honorable Charlotte Knollys, companion and intimate friend of the late Queen Alexandra for more than half a century and one of the best known figures in court circles, is dead at the age of 95. Queen Alexandra frequently referred to her as "my beloved Charlotte," and on one occasion created a precedent by refusing to leave London for Sandringham at Christmas time because of the illness of her friend.

## FROM MOTHER OF EIGHTEEN

Read How This Medicine  
Helps Her

Carlton, Alberta.—"I am fifty-eight years old and the mother of eighteen living children. We live on a farm. I am a healthy mother considering that I have just a big family to work for. The druggist first told me about Lydia's *Putnam's Corn Extractor* and I took him his Veal Compound and I have depended on it for many years.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

When I had this pain, the physician was telling me about his wife's ailments and after I told him about Lydia's *Putnam's Corn Extractor* he went to the drug store and bought her two bottles.

## Here and There

(515) The trans-Atlantic speed record between the ports of Liverpool and Saint John, was broken recently by the arrival at the latter port of the Canadian Pacific liner *Empress of New York*, after a crossing from Liverpool which took six days, 22 hours and 14 minutes. According to local shipping men this is the first time in the history of the port that a crossing has been made in under seven days.

Two thousand pounds of queer maple sugar and syrup were handled daily during the latter part of April by the Canadian Pacific Express Company to points overseas, the Prairie Provinces and the West Coast. This is regarded as being a record for shipping maple sugar.

Close on six million dollars were spent on New Brunswick roads during 1929, being reconstruction of 221 miles of main trunk highways and 1138 miles of secondary roads. This is regarded as the most extensive and costly highway construction improvement and maintenance ever undertaken in the Province.

Snapped in Hyde Park, London, England, recently, little son of Lord Strathcona and descendant of the great Canadian who founded the Canadian Pacific Railway, was photographed kissing his cousin, the small daughter of the Hon. Mrs. Arthur Howard. Both are in their early 20s. In the great past when one of the major events in the history of Canada was in the making.
